We are a licensed contractor with a complete staff of factory trained Sales Engineers and Service Technicians. We provide Equipment, System integration, field repair service, Start up, and Training.

SERVICES We work with Engineers, Manufactures, Government Agencies, Municipalities, Rural Water Systems and Other end user to provide assistance to develop the territory and projects in accordance with mutually established goals. We use our sales and marketing skills to provide you with complete coverage in our assigned territory. Our dedication to service before, during and after the sale has established us as a leader in our industry.

Serv-atron the Company

GOALS / COMMITMENTS:

Serv-Atron is built on service. Our goal is to exceed our customer's expectations. We will strive to solve our customer's problems before our own. We will provide not only quality equipment but also the very best equipment for the application. We are committed to putting our customer first. You can be assured Serv-Atron will be there for you.

Serv-Atron is committed to being the best in our industry. We will continue to grow in both the water and wastewater markets. We will continue to expand our service and technical assistance programs. We will add only quality equipment to our process equipment representation in both the water and wastewater markets

Our Company will continue to grow and strive to be the best. We will do this by always putting our customers first

Our goal is not to be the biggest but to be the **BEST**

COMPANY STATEMENT

Our Company Statement for the ones we proudly serve:

You share a common purpose with us. Since 1984 we have been dedicated to providing quality process equipment, controls, instrumentation, and service to help you design and construct, and maintain reliable systems. Our desire is to provide you the best, most efficient and cost-effective solutions to your municipal water and wastewater problems.

Serv-Atron and its employees are committed to providing full service from the initial project concept through the construction stages and all subsequent operation and maintenance of the equipment. Serv-Atron will be there to work with and assist the design engineers, manufacturers, contractors, and end users. We ask all to evaluate Serv-Atron and suggest ways for Serv-Atron to improve. We strive to provide a superior product in all that we do. Our qualified staff desires always to be "helpful, courteous, and knowledgeable. This coupled with our quality manufactures allows us to provide superior products. This is a goal for which we continue to strive.

We take great pride in working with you. It is our desire to help you consistently meet and exceed your expectations. Because of our size, we can give you personal service to meet your needs. After all, you are a very valuable Serv-Atron asset.
